

# Add Air Management to Your Fill Station

**\*\*\* RETROFIT ONTO ANY HYPRES CLASS 2 CONTAINMENT \*\*\***

Manage your breathing air cascade system with this simple and easy to use air management panel. Individual gauges and valves for each storage cylinder allow you to keep track of pressures in each storage cylinder. Soft seat panel valves are much easier to operate than DOT storage cylinder valves. System can be factory installed or retrofitted onto any containment.
