

Made in the USA

HYPRES Series All in One Cabinet

HYPRES-2

The **HYPRES** series system consists of an American made compressor 9 to 18 cfm 5000 to 6000 psi, class 2 containment (NFPA 1901 certified), air management panel, and DOT or ASME air storage. The **HYPRES** series consists of four products all in one unit. All four products are built a single common frame.

Standard Equipment:

Compressor:

- Stainless steel gauge panel complete with high temp, oil pressure, each stage, On/Off switch & run light
- Replaceable cartridge type purification system. Up to 60,000 SCF of Grade "E" air between cartridge changes
- Automatic Condensation Drain System eliminating buildup every 15 mins.
- High-pressure shutdown and auto on switch
- High temp. and Low Oil pressure switch
- Relief valves on each stage
- Intercoolers/Aftercoolers

Class 2 Containment:

- Safety Interlock control system
- (2) Fill hoses w/SS bleed valve & fill adapter
- NFPA 1901 certified

Air Management Panel:

- Gauge & Valve for each DOT cylinder (3)
- Gauge & Valve for each fill position (2)
- Adjustable Regulator with inlet & outlet gauges

Air Storage:

- (3) DOT 5000 or 6000 storage cylinder cascade system
- ASME cylinders optional

Options:

- CO Monitor
- Moisture Monitor

Dimensions: 69.5"W x 34"D x 66"H
